UNDER 35

SIGMA  KAPPA

FROM THE EDITOR

Dear Sigma Kappas,

Much has been said about the characteristics and differences between generations since, presumably, the concept of “generations” has existed. Certain sets of attributes have been ascribed to the Baby Boomers, Generation X, Millennials and Generation Z, and those attributes are not always complimentary. Labels like “lazy,” “entitled,” “anti-social” and “unengaged” get thrown around frequently to describe younger generations. If there is anything that can disprove these notions about Millennials and Gen Z-ers, it’s a quick look at this year’s 35 Under 35 honorees. Everyone on this list was born in 1988 or after, and some aren’t even out of college, but their list of accomplishments is much longer than their ages.

In our 35 Under 35 feature, you’ll meet 35 young Sigma Kappas who are doing incredible things in their careers, on their campuses and in their communities. You’ll learn about members who have founded their own successful businesses, improved the lives of many in their communities, given back to Sigma Kappa, and accomplished goals some people can only dream of, all in their first three decades of life.

As we approach Sigma Kappa’s 150th anniversary next fall, my thoughts have been focused on the past and the history of our organization, but members like our 35 Under 35 honorees have made me think more about the future. Our Founders laid the groundwork for an organization that would last centuries into the future as teens and young twenty-somethings, and clearly that spirit of achievement has persevered throughout the years. As you can see from reading about our exceptional 35 Under 35 members, our future has never looked brighter.

In Sigma Kappa,

A handwritten signature in black ink that reads "Mallory Simmons". The signature is fluid and cursive.

35 In Memoriam

FROM THE DESK OF...

Dear Sigma Kappas,

I have an odd obsession with reading job descriptions. Not because I am hunting for a new role all the time, but because I am interested in what companies are looking for, what skills might be needed and ways I can improve. As the child of two public school teachers, I have lived by the philosophy of “never stop learning, never stop growing” for most of my adult life, and it continues to allow me to develop as a leader, sister, boss and friend.

It should be of no surprise that I connect with the Sigma Kappa value of personal growth the strongest. In addition to spending time daily reading books, articles, case studies and more, I am a fan of using my network to ask questions and discover new understandings and talents needed to make my work stronger and help support the team around me. It is our network of sisters, colleagues and others that allows us to collaborate and make deeper impacts on each other.

As we highlight our third 35 Under 35 class, I am again amazed by the stories of impact made by our members in their communities. I am in constant awe that I get to call these amazing people my sisters and celebrate the work they are doing each and every day. I encourage you to read their stories and learn more about our amazing membership, but also take the time to network and maybe ask a sister some questions about their purpose, their why, and their work.

As I reflect on my time as a Sigma Kappa and the impact our sisterhood has made on me throughout the years, the possibilities of connection and networking that lead to personal growth have been many of my favorite moments. One of my best friends and Sigma Kappa sisters helps me daily with leadership questions when I might be struggling with someone on my team or motivating people to finish a task. Even though we work in two entirely different industries (her in the mortgage industry, me in college sports), many of the needed skills are transferable and it is always nice to have a person (or two) who can give you the guidance or “kick in the pants” needed to push forward. Many times, I feel like an island as a woman working in sports, but I remember I have a network of sisters around me that I can use for support at any time.

As a member over the age of 35, I'd like to remind us all that this list is not all-encompassing and not the only impact we are making as a membership. I encourage each of us to tap into the various affinity groups available, connect with sisters on LinkedIn or other professional networks, or simply just reach out and ask questions of each other and see what you can learn daily to help you grow. You might be amazed by what you will learn and who you will meet.

In Sigma Kappa,

Jessica Roswell, Epsilon Lambda
National Vice President
jroswell@sigmakappa.org

SAVE THE DATE - CONVENTION 2024

JULY 10-13, 2024

Mark your calendars for our 2024 national convention at the Sheraton Boston **July 10-13, 2024!** Start thinking about your plans to join us in Boston to celebrate our 150th anniversary with sisters from across the country. More information will be shared this fall!

HAPPY 30TH ANNIVERSARY, NATIONAL HOUSING CORPORATION!

Sigma Kappa's National Housing Corporation (NHC) celebrated its 30th anniversary this summer at their Housing Conference in Raleigh, N.C. Established in June 1993, the NHC was founded to manage the Sorority's greatest financial asset—its chapter properties—and make local house corporations more effective by providing financial services and technical assistance. Today, the NHC manages \$25 million in financial assets and \$88 million in real estate assets.

Learn more about the history of the NHC and read a recap of their 30th anniversary celebration in the Autumn 2023 issue of the *Sigma Kappa Triangle*!

NATIONAL COUNCIL RECOMMENDATIONS OPEN IN NOVEMBER

At the 2024 national convention, July 10-13, the voting delegates will elect the national council of Sigma Kappa for 2024-2026. Members and chapters of Sigma Kappa are encouraged to recommend qualified women to serve, which can include self-recommendation. Through a nomination and election process that starts in November 2023, Sigma Kappa national council members are elected by the membership to serve for a biennium (two years).

The following qualifications should be considered: Sigma Kappa Sorority experience, including number of years served and positions held at a national or district level within the Sorority; qualifications for the specific office for which nominated; availability and willingness to carry out the duties of the office for which nominated; history of donating to the Sigma Kappa Foundation; history of alumnae chapter membership or payment of national alumnae dues; non-Sigma Kappa Sorority leadership experience, including experience serving with the Sigma Kappa Foundation or Sigma Kappa National Housing Corporation and other professional, social, philanthropic or local organizations.

The nomination form will be available on sigmakappa.org starting **Nov. 1**. Make your voice heard and help shape the future of Sigma Kappa!

JENNIFER LEUNG
University of California San Diego

Jennifer Leung, *Beta Chi*, University of California San Diego, has been awarded the Micaela A. Isler Headquarters Partner of the Year Award from West Virginia University for her work as a National Panhellenic Council (NPC) Area Advisor.

The Headquarters Partner of the Year Award recognizes the efforts of a member of a headquarters staff, including volunteer officers, to provide a positive partnership between their organization, their chapter, and West Virginia University.

In her role as an Area Advisor, Jennifer works directly with College Panhellenic officers and/or fraternity/sorority advisors (FSAs) advising them on Panhellenic organization and recruitment procedures. She also serves Sigma Kappa as the director of Panhellenic operations.

Jennifer is the Associate Director of Student Leadership Development at William & Mary in Williamsburg, Va., and former fraternity/sorority advisor at the University of Arizona.

JORDAN BENTLAGE
Bowling Green State University

Jordan Duffie Bentlage, *Theta Upsilon*, Bowling Green State University, was installed as president of the Fraternity Executives Association (FEA) at the annual meeting in Palm Desert, Calif., in June. FEA is the professional association of men's and women's fraternity executives. It is dedicated to the common interests of its members and promotes, supports and encourages the free discussion and exchange of ideas relating to college fraternal organizations.

Jordan has worked at Sigma Kappa national headquarters for more than 20 years and has served as chief executive officer (CEO) since 2011. Prior to that, she served as director of collegiate services, director of publications and as a field consultant. As CEO, Jordan works with with national council in the formation of the Sorority's future direction, policies and procedures; oversees the staff in its day-to-day operations; and creates and maintains effective internal and external relationships.

THIS COULD BE YOU!

We want to celebrate our members' accomplishments! Have you or a sister you know recently won an award or honor, gotten a new title, been recognized by your workplace or community, published a book, or any other impressive accomplishment? Let us know! Send in your Living with Purpose submissions to sktriangle@sigmakappa.org so we can share all the wonderful things our members are doing!

A BACHELORETTE OF OUR OWN

Meet reality TV star and Sigma Kappa **Charity Lawson**

Photo courtesy of ABC

Charity Lawson, *Theta Xi*, Auburn University, didn't get the final rose on Season 27 of ABC's "The Bachelor", but she captured the hearts of the public and was chosen to star in Season 20 of "The Bachelorette". On the show, Charity began with a pool of 25 contestants and narrowed them down in her quest to find true love. When offered the role, Charity said, "I've waited forever to find the love of my life. It blows my mind that I could meet my person and have my happily ever after."

Charity is a child and family therapist from Columbus, Ga., with a master's degree in clinical mental health counseling from Auburn. She works as a therapist at a

child advocacy center, with fields of interest including trauma, child developmental disorders, anxiety, and counseling for veterans, couples and families.

Charity is the fourth Black Bachelorette in the series' history and understands the importance of the platform this has given her. "I can't wait to show little girls who look like me that being in a position like this is possible. I know that I'll be making a lot of people proud."

Count Sigma Kappa among those who are proud – with her authenticity, grace and strength, Charity is a shining example of a Sigma Kappa woman.

HONORING OUR LEADERS

Order of Omega recognizes sorority members' outstanding leadership

Order of Omega is an honor society for members of Greek organizations recognizing juniors and seniors who have exemplified high standards of leadership. Congratulations to the following Sigma Kappa members for their acceptance into Order of Omega!

LEAVING YOUR LEGACY

The Sigma Kappa Foundation's Horizon Society

Estate planning can sound overwhelming; however, it is one of the best things you can do to make it easier for your family when the time comes. It is also a great way for you to leave a legacy with charitable causes important to you.

The Sigma Kappa Foundation is pleased to offer a new tool for its members through its gift planning website, sigmakappa.planmygift.org. This site provides detailed information and easy-to-use resources for our members when it comes to estate planning. Making an estate or legacy gift to any charity ensures support for the purposes you love, allowing your legacy to live on.

The new site features information beneficial to members based on selection of age, desired giving amount, and/or assets. These options help all Sigma Kappas explore what the best charitable giving options might be for them. There is also a comprehensive estate planning kit available free for download.

This site will remain up to date with tax laws on estate planning and charitable giving as well as provide many different options for leaving a legacy with the Sigma Kappa Foundation. If you already have plans to include

Sigma Kappa as a beneficiary in your estate, please let us know so we can take an opportunity to celebrate your commitment to Sigma Kappa and honor you in our Horizon Society.

We are so thankful to the members of our Horizon Society who have had the foresight to provide Sigma Kappa with a legacy gift and ensure the Foundation's long-term success. These gifts will work to make today's dreams into tomorrow's realities. Gifts from Horizon Society members have established scholarships, funded leadership and educational programs, supported grants and, most significantly, made a difference through their lasting legacy. To view our Horizon Society members, please visit sigmakappa.org/foundation and scroll to the Distinguished Donors section, viewable once you login to your personal account.

If you are interested in learning more about our Horizon Society as well as the impact a future legacy gift could make, please reach out to Lisa Swiontek, executive director, at lswiontek@sigmakappa.org or request more information through our new site. All inquiries are confidential and without obligation.

Christie Gillespie and her late husband, Trent

"Losing your life partner and best friend has a way of making you stop and think about what is truly important and what impact you want to leave in the world. When I lost my husband in 2021 at age 55, my life plans and priorities instantly changed and I realized what an impact he had on his family, friends and community. Through my grief, I began thinking more seriously about what I wish my impact to be. I thought of Sigma Kappa instantly and how the Beta Sigma Chapter helped shape me in so many ways during my time at Purdue University. I have been contributing to the Beta Sigma Scholarship Fund for many years and decided that I wanted to ensure it continues to grow even after I am no longer around. The Foundation has given me the chance to give back to an organization that has provided lifelong friendships and meaningful volunteer opportunities."

– Christie Gillespie, Beta Sigma, Purdue University, Horizon Society Member

35 UNDER 35

Sigma Kappa's 2023 35 Under 35 honorees prove that the future is indeed bright. These leaders in their careers, on their campuses and in their communities demonstrate a commitment to Sigma Kappa's values and what it means to Live with Heart every day.

EMILY ALONZO, 24

LAMBDA ALPHA, SPRING HILL COLLEGE

Upon graduating Magna Cum Laude from Spring Hill College with a bachelor's degree in Biochemistry, Emily is now working toward her Ph.D. in Biochemistry and Chemistry at Baylor University. As a research assistant, she is focused on increasing accessibility within the sciences to those with visual impairments. Recently, Emily spearheaded an effort to increase accessibility in the STEM field for persons with blindness or low vision. Utilizing an ancient art form called the lithophane, which has been reinvented via 3D printing to allow for data sharing between sighted and blind persons, Emily hosted a three-day immersion in science for blind children. The purpose was to illustrate to these children that a career in the sciences is possible for them. Additionally, Emily's laboratory works with metalloproteins and protein aggregation, focusing on neurodegenerative diseases. Emily's scope of research currently involves RNA molecules and modifications to RNA, which she hopes will help mitigate various diseases and disorders by identifying their root cause in the form of RNA. In 2022, Emily won the Outstanding Teaching Assistant Award at Baylor University.

COURTNEY SOLEK, 26

ALPHA TAU, MICHIGAN STATE UNIVERSITY

While attending Michigan State University, Courtney suffered from an eating disorder and received treatment for her illness. As an outcome of recovery, Courtney created A Paige of Positivity, a food blog and social media channel where she highlights the highs and lows of life and her passion for recovery and healthy living. The recipes Courtney features focus on simple, attainable ingredients. Since starting the blog several years ago, Courtney has gained over 50,000 followers. Courtney is skilled in recipe development, food and product photography, short-form video content, digital design, and is an expert taste-tester. Courtney uses her platform to give back to her community through actively fundraising and bringing awareness to organizations in need. She also connects with young women who may be struggling with mental or physical health and has built a community centered around support and positivity.

Meghan is a versatile journalist and a rising star in broadcast news. The 2020 Penn State graduate serves as the morning news anchor at the ABC affiliate KMIZ in Columbia, Missouri, where she utilizes her skills as a reporter, producer and web content creator.

She continues to embrace the ideals of Sigma Kappa, serving as a dedicated volunteer for the Alzheimer's Association. Meghan has appeared in several media pieces designed to raise Alzheimer's awareness, focusing on its impact on patients and families while reflecting on her own personal experiences with her grandmother who was affected by the disease.

MEGHAN DRAKAS, 25

THETA PSI, THE PENNSYLVANIA STATE UNIVERSITY

BIANCA D'ALESSIO, 31

ZETA ZETA, BABSON COLLEGE

Bianca currently manages over \$10 billion in active and pipeline new development real estate sales inventory for Nest Seekers International. She is the founder of The Masters Division at Nest Seekers International, which has quickly established itself as one of the top-producing teams in the industry. Bianca was ranked #1 top residential real estate broker in New York City and New York State and #14 in the Nation for 2022 by RealTrends. Bianca has been featured in publications including Forbes, Hollywood Life, Realtor.com, the New York Times and more. Bianca has lived and worked in New Zealand, China, Russia and India studying the entrepreneurial ecosystems and political spheres that affect business in the emerging markets. She has also served on the Alumni Advisory Board for her alma mater, Babson College in Boston.

Bianca is not only a very successful real estate agent, but she also created her own division to give more opportunities to real estate professionals, especially female entrepreneurs. Bianca is an avid volunteer and advocate for women, regularly facilitating workshops in New York on topics such as opening a bank account, establishing and using lines of credit responsibly, household budgeting, and navigating the financial aid process. Bianca has been a guest on many career- and women-focused podcasts and is a cast member on the TV show *Selling the Hamptons* on MAX. Bianca has truly dedicated herself to developing personally and professionally and passing her secrets of success on to other women.

Falon has dedicated the majority of her career to increasing music education programs and acknowledging the importance of music educators. Falon is a Senior Project Manager for Stand Together Music, a nonprofit music organization that shows the powerful impact of music on society. Previously she worked as the Community Impact Manager for the Country Music Association. She was part of the 2022 class of Nashville's Top 30 Under 30 issued by Cystic Fibrosis Foundation of Middle Tennessee. This is an elite recognition program and philanthropic fundraising competition showcasing the city's most active young professionals and philanthropists under the age of 30. She is involved in several community organizations where she volunteers her time to make a positive impact in her community.

FALON KEITH, 29

EPSILON ZETA, WESTERN KENTUCKY UNIVERSITY

MADDY FLAIR, 27

BETA ZETA, UNIVERSITY OF MARYLAND

Maddy is passionate about developing people and supporting talent to reach their fullest potential.

Professionally, she serves as the Director of Talent Strategy & Acquisition for Level 5 Capital Partners in Atlanta, a boutique private equity firm where she supports the growth of consumer service brands across the U.S. Within Sigma Kappa, Maddy volunteers as the collegiate management advisor for the Beta Zeta Chapter and has recently been appointed a collegiate volunteer training coordinator, helping recruit and train new volunteers to give back to our members. Maddy has given her time to serve as a facilitator at numerous Sigma Kappa conferences throughout the country and has a talent for helping collegiate members think and discuss in new and unique ways.

FAITH BARKER, 30
BETA NU, BRADLEY UNIVERSITY

Faith is the marketing director for real estate investment firm Pioneer Acquisitions, where she is responsible for overseeing all marketing efforts for the brand's three companies: Ivy Residences (a 25-building multi-family portfolio), The Penthouse Hyde Park (a private events venue), and Brixbid (a start-up website to help apartment renters negotiate their rent with their landlord). In addition to her busy full-time job, Faith serves Sigma Kappa in multiple roles, fosters dogs with South Florida Beagle Rescue, serves on national forums with the National Apartment Association, and is working with Chicagoland Apartment Association to create a diversity and inclusion task force.

Faith represents Sigma Kappa in practicing the saying, "It's not four years, it's for life." Since becoming an alumna, Faith has been the collegiate alumnae relations chair for the Chicago Alumnae Chapter, Ritual advisor for Kappa Omicron and Lambda Zeta Chapters, vice president of communications for the Miami Alumnae Chapter, DEIA advisor for Beta Tau, and collegiate management advisor for Lambda Zeta. Though the chapters Faith serves are not close to her hometown, she is always willing to be on campus when needed, and her advisees know they can call her at any time. Outside of her Sigma Kappa stewardship, Faith remains close with many of her Beta Nu sisters while living about 1,400 miles from most of them. She keeps her sisters updated on her work with Sigma Kappa and has connected several to volunteer roles either through chapters she works with or by introducing them to other volunteer opportunities within the Sorority.

In both her professional life and as a volunteer with the Sorority, Destiny is a role model. She amplifies voices that need to be heard and is someone other members admire. In her role as Director of Alumnae Experience for Sigma Kappa, Destiny dedicates herself to enhancing the alumnae experience for all sisters. She also uses her platform to continue to celebrate people of various backgrounds and experiences and implements diversity, equity, inclusion, and accessibility (DEIA) into her daily life. Destiny graduated Cum Laude from East Tennessee State University with a bachelor's degree in Social Work and a minor in Leadership. She also earned a master's degree in Agricultural Leadership, Education, and Communication from the University of Tennessee, where she won the 2020 Extraordinary Professional Promise Award.

Additionally, Destiny has certificates in strategic management, DEI, and facilitation. Destiny recently finished her term on the Board of Directors for the Book 'em Non-profit, which is on a mission to create a more literate Nashville and to ignite children's passion for reading through book ownership. She was also a 2022 Governor's Management Fellow for the State of Tennessee, which gives some of our nation's best and brightest the opportunity to serve the state and its citizens through meaningful placements within state agencies. In this role, Destiny had the opportunity to gain project management experience with high-level initiatives and use her skills to directly contribute to the priorities of the governor and the mission of the Tennessee Department of Environment and Conservation's Bureau of Parks and Conservation and Tennessee Department of Agriculture. Out of all the achievements listed above, she knows she did not do all this on her own and Destiny credits her success to the Lord and her support system.

DESTINY BROWN, 29
GAMMA LAMBDA, EAST TENNESSEE
STATE UNIVERSITY

SAMANTHA H. WELDON, 33

EPSILON EPSILON, UNIVERSITY OF GEORGIA

Samantha has a passion for helping children with disabilities and challenging behaviors thrive. She began working with special needs students at her church and local elementary school as a substitute teacher which led to a paraprofessional position. These experiences inspired her to pursue her Master of Arts in teaching in special education with an emphasis in behavior from the University of Georgia. After graduation, Samantha earned her Board Certified Behavior Analyst (BCBA) certification. Samantha worked in a clinic in Macon, Georgia, for two and a half years, working her way up to Clinic Director, before starting her own business to meet kids where they are, including their homes and schools. Her business, Pure Heart Behavioral Therapy, LLC, started as a one-woman show and now employs two BCBAs and multiple Registered Behavioral Technicians (RBTs). Samantha's company has helped many children learn new skills and empower parents in their homes, as well as partnered with several school districts to better train their staff and assist students with disabilities and challenging behaviors by developing behavior plans and IEP Goals for those students. She also started a program at a local church allowing parents with special needs children to have a day or night out knowing their children are in qualified and capable hands. Samantha participates in events in her community such as the Special Olympics and Night to Shine and encourages people around her to get involved with this special population of kids.

Elizabeth has just been named the assistant principal of St. Wenceslaus School in Omaha, Nebraska. Previously, she was the Social and Emotional Learning (SEL) Facilitator and a middle school reading teacher at St. Cecilia Cathedral School where she led the school in building and implementing an effective SEL program. The mission of the SEL program is to equip children with social skills to be caring, confident and respectful of all. Elizabeth is also pursuing a doctorate in Educational Leadership from the University of Southern California. Her long-term goal is to address the complex problems within K-12 education by being an inclusive and transformative leader and to begin breaking down the barriers that make it difficult for marginalized children to access quality, equitable education. Elizabeth's passion for equity and inclusion extends to her Sorority involvement. She serves on the Sigma Kappa DEIA Committee and is passionate about creating an inclusive environment for everyone to be successful and experience a strong sense of belonging.

**ELIZABETH
LOEHR, 29**
THETA ETA, UNIVERSITY OF
NEVADA, LAS VEGAS

In her work as a pharmacist and pharmacy manager, Sarah Vest serves her community by keeping people informed about their health choices. She helped to launch the first COVID vaccine clinic for her district and has given over 4,000 vaccinations to date. Sarah received the Dean's Award from University of South Carolina College of Pharmacy in 2017 and obtained her Master's in Public Health while in pharmacy school, which is a feat in and of itself. But the work she's most proud of is her service to the Junior League of Charlotte. This is an organization of women whose mission is to advance women's leadership for meaningful community impact through volunteer action, collaboration and training. Sarah has served as their social media manager for the past three years and has recently stepped into the recruitment and sponsorship coordinator role. She uses the recruitment knowledge gained from Sigma Kappa to help drive a successful recruitment initiative in Charlotte for women volunteers.

**DR. SARAH
VEST, 32**
ALPHA DELTA,
UNIVERSITY OF
TENNESSEE

MARLEE RIBNICK, 29
EPSILON MU, UNIVERSITY OF MISSOURI

Marlee's nominators describe her as someone who has dedicated her life to fighting for the rights of others, especially those in marginalized and minority groups. As a copywriter for the American Bankers Association, she has received national awards for her work, including her contributions to materials that focus on diversity, equity and inclusion (DEI).

In her prior role on staff at Sigma Kappa national headquarters, Marlee paved the way for the creation of the handbook and resources to support the diversity, equity, inclusion and access chair position, along with other initiatives needed to roll out programming for the organization. She used her talent and knowledge to not only educate but prepare Sigma Kappa for how to implement such a vital position, long before such a role was required. Marlee served on the task force that examined Sigma Kappa Ritual to make sure that it was inclusive and welcoming to members of all backgrounds. Prior to the implementation of the task force, she led the way in creating programming on Ritual education that was used at regional leadership conferences (RLC) and conventions to prepare members to better understand the role of Ritual in the organization. Marlee is described as "a natural born change agent who will always fight for equality. She's never afraid to stand up for what's right and is always eager to take on a challenge for the betterment of the group. She always shows up for the greater good and her devotion to others is inspiring."

A public relations and marketing strategist, Liv works in the entertainment industry engineering awards campaigns for documentaries and music projects. Over the past five years, her team's campaigns have met great success, garnering four Oscars, five Grammys and more than 10 Emmys. Liv says her favorite projects have included Taylor Swift's "Miss Americana", Michelle Obama's "Becoming", "Homecoming: A Film by Beyoncé", "Crip Camp", "A Love Song for Latasha" and "Tiger King".

Liv says she looks for ways to open doors for others, serving as a professional mentor for many undergraduate students and completing informational interviews with students each month. Passionate about the power of education and personal growth, in 2021 she established the Liv Moore Scholarship for Strategic Communications at the University of Nevada, Reno, and in 2022 she gave a TEDx talk on the importance of giving back early and often. She was recognized as a Forbes 30 Under 30 awardee in 2022 for her professional success.

Liv says she represents Sigma Kappa's values in her career by providing opportunities for personal growth, by seeking out philanthropic endeavors and by attempting to be the best sister she can be.

LIV MOORE, 28
KAPPA XI, UNIVERSITY OF NEVADA, RENO

OLIVIA FITCHETT, CPC, 30
ZETA ALPHA, INDIANA UNIVERSITY
SOUTHEAST

Many people dream of ditching the nine-to-five and going to work for themselves, but not many have the bravery to actually make the leap. Olivia is one of those people. After graduating from Indiana University Southeast, interning at the Office of the First Lady in the White House, and working as a Sigma Kappa leadership consultant for two years, she knew she wanted to start her own coaching and speaking business but felt confused and fearful about taking the next step.

"It took me years to feel like I was ready," she said. "I knew the call on my life and ultimately, the cost of not living in my purpose was too much, and I launched Olivia Fitchett Coaching and Speaking in 2020."

Olivia is a professionally-certified coach and speaker who supports leaders in uncovering the potential that's right inside of them. Through coaching and speaking, she uses her passion for personal growth to help individuals and groups find their own power and break through the walls they've built in their professional and personal lives. She has worked with multiple Fortune 500 companies and made a difference in her local community while continuing to grow in her potential.

Olivia knows something about breaking down barriers – growing up with multiple anxiety disorders, she learned how to adapt and overcome from an early age and how to push through her "reality" to envision the future she wanted. Now, she helps others do the same using her own special talent for finding joy, freedom and opportunity in every situation.

**LEA
LAFORTUNE, 33**
KAPPA ETA, TEXAS
CHRISTIAN UNIVERSITY

With over a decade of experience working for reputable Dallas Interior Designers, Lea made the decision in June 2022 to start her own company, LaFortune Interiors. Specializing in high-end residential interiors, Lea has developed a unique approach to interior design that centers around understanding and collaborating with clients. She believes a successful project is one that is reflective of those who live there and works to curate "elevated yet livable spaces that will make you love coming home." While her clients are primarily in the Dallas area, she also has projects in California, Colorado, Oklahoma, and is currently designing the chapter room for Kappa Eta, which she describes as a "full-circle moment!"

Since graduation she has given back to Sigma Kappa by serving as an advisor to the vice president of philanthropic service, assisting with their annual fundraiser and is currently advising the Panhellenic delegate.

**LANA MORGAN
KOJOIAN, 20**
THETA ETA, UNIVERSITY OF
NEVADA, LAS VEGAS

Lana has a goal of graduating a year early from the University of Nevada, Las Vegas, to pursue her dream of becoming a Federal Prosecutor on the East Coast. She is currently on track to accomplish that plan by taking seven to eight classes each semester while still maintaining her 3.9 GPA. Outside of classes, Lana has completed three internships, works a full-time job, and holds leadership positions in several organizations on campus. Lana won the "Best Attorney Award" at a regional competition, which was unheard of as a freshman, and even more so with only one month of experience. Despite her busy schedule, Lana's dedication to Sigma Kappa hasn't wavered. She was vice president of finance for her chapter and was asked to come back as soon as she graduates to serve as finance advisor.

As the Manager of Constituent Relations for the University of Pittsburgh's School of Education, Madison bridges fundraising and alumni engagement, helping alumni remain connected to their alma mater and encouraging them to use their financial resources to support school initiatives and student opportunities. After college, Madison discovered her passion for nonprofit organizations and the impact they make on communities. While completing her master's in public administration at Pitt with a major in Public and Nonprofit Management, she participated in an international internship in Cameroon that further reinforced her passion to give back. Since graduation she has interned, worked and volunteered with a variety of nonprofit organizations, always looking to positively impact her community.

The same principles that govern her interest in nonprofits apply to the service she provides to organizations about which she is passionate such as Sigma Kappa, Auburn University and the Junior League of Pittsburgh. Madison currently serves Sigma Kappa in a variety of ways including finance advisor for Theta Xi, director of housing partnerships, and District 2 nominating committee representative. She has facilitated at numerous Regional Leadership Conferences and chaired the Volunteer Structure Task Force. Madison is the Nominating Director for the Junior League of Pittsburgh and Operations Secretary for Auburn's Young Alumni Council. She co-founded the Western Pennsylvania Auburn Alumni Club this year, serving as co-president.

**MADISON

UNIVERSITY

MARIAH LINTON COOK, 28
GAMMA ALPHA, UNIVERSITY OF
NORTHERN COLORADO

Mariah began her career after college as the youngest registered lobbyist at the Colorado State Capitol. Her confidence and experience have grown over the years as she has represented over 15 organizations and industries, and this year the first-time mom was promoted to Senior Associate after being awarded representation of the Colorado Women's Chamber of Commerce. Some of her favorite endeavors have included representing the geriatric community where she often crosses paths with the Alzheimer's Association. This year she partnered in passing legislation to increase reimbursement for nursing homes to help them recover from losses sustained during the pandemic. Mariah has also volunteered to work with her firm's pro bono clients and has passed pieces of legislation for organizations such as the Chanda Plan Foundation (alternative treatment for people with spinal cord injuries), Imagination Library Colorado (childhood literacy) and COKID (children with dyslexia).

Mariah proudly wears her badge to the Capitol each year for international badge day, and while she strives to live out all of Sigma Kappa's values, she notes that friendship has remained the value closest to her heart. She says she cannot imagine life without her sorority family, "They have been there for every important day of my life and I will move mountains to be there for theirs."

SIERRA K. DIMBERG, 32
EPSILON LAMBDA, CALIFORNIA STATE UNIVERSITY,
SACRAMENTO

Whether she is working with active-duty military service members, students or elite performers, Sierra uses her knowledge and passion for psychology to improve people's lives through mental health. Sierra is an Active-Duty Naval Clinical Psychologist currently serving as the Associate Director of Psychology Training at Naval Medical Center Portsmouth. She received her BA in Psychology and minor in Counseling from California State University, Sacramento and her Ph.D. in Counseling Psychology from Arizona State University. Sierra

was commissioned with the U.S. Navy in 2016 after being selected for the Health Professions Scholarship Program (HPSP). In addition to helping thousands of service members with their mental health in the last four years, she conducts research on discrimination and leadership experiences of women in military medicine. She has also conducted and presented research on queer and gender microaggressions in university and military settings. Sierra serves as a Clinical Supervisor to psychology doctoral students at Regent University and teaches psychotherapy to psychiatry residents, while also supervising psychology interns at Naval Medical Center Portsmouth hospital. She is a consultant for The Tatnuck Group, a sports consulting firm, and recently started her own business, Camelback Performance & Consulting, working with elite performers. She has worked for an MLB team as a Behavioral Health Consultant and with draft nominees for the NFL. Sierra works tirelessly to serve many diverse populations while continuously growing personally and professionally.

**KATIE
PEDRICK, 34**
DELTA, BOSTON
UNIVERSITY

Katie followed her gut early on in her career, leaving cutting-edge medical research to become a serial entrepreneur supporting people, especially women, within the holistic healthcare space. She founded VIBE Wellness, an acupuncture clinic focused on women's hormonal health and fertility; Jinjur, a line of herbal tinctures inspired by her clinical practice; and co-founded the #1 acupressure iOS app, Moxa.

From continually pursuing higher education, to building a business empire that allows her family to thrive, Katie is a devoted and loyal friend and family member who pushes herself and everyone around her to be their best self. Beyond her business ventures, Katie frequently mentors female acupuncturists starting their own businesses and wellness entrepreneurs continuing her history of mentorship that began with Sigma Kappa.

Fully intending to pursue a law career, Megan majored in political science and minored in legal studies. After several months at a corporate law firm in Washington, D.C., she realized her true passion was creating change through public policy.

Currently employed as a Lobbyist and Policy Manager for Consumer Brands Association in Washington, D.C., Megan is also pursuing an online Master of Public Administration with a focus on policy analysis. She says lobbyists often get a bad rap, caught up in the polarizing world of politics, but she loves working in a field that exists for the betterment of society. She is also passionate about helping those with mental illness and serves as a healing conversation coordinator and board member for the Washington, D.C. chapter of the American Foundation for Suicide Prevention.

DELAWARE

As a passionate, driven nursing leader, Amanda works diligently to improve healthcare and ensure that patients receive excellent care. Amanda is Vice President & Chief Nursing Officer (CNO) for the Indiana University Health Adult Academic Health Center, a 900-bed academic level 1 trauma center in Indianapolis. After starting her career as a clinical nurse, Amanda has continuously sought opportunities to grow and develop, and she has been able to serve in multiple formal leadership roles. Her approach to leadership helps Amanda connect with teams and elevate the voice of registered nurses both within her organization and through her work as a volunteer with the American Organization for Nursing Leadership. Amanda serves as a volunteer board member for the Indiana Diaper Bank, where she lends her time and expertise to support the goal of eliminating diaper need for the one in three Indiana families who experience it.

AMANDA NOTH-MATCHETT, 35
BETA SIGMA, PURDUE UNIVERSITY

KAT GOODMAN,
33
THETA UPSILON,
BOWLING GREEN STATE
UNIVERSITY

Kat was an eager collegiate chapter officer who always sought to do what was right and fair for the members of her chapter. Since then, Kat has held a number of volunteer roles within Sigma Kappa. Everything she does, both as a volunteer and as a professional, has been with one goal in mind: to help others learn new skills and build their confidence. Kat has always embodied Sigma Kappa's values, and even now as a professional demonstrates those regularly. She works for Kappa Kappa Gamma's national headquarters as the alumna leadership coordinator. In this position, Kat has been able to lean on her own experience as a Sigma Kappa volunteer and use that to improve the experience of others. She demonstrates the values of service and friendship by using what she has learned as a member of Sigma Kappa to help others build a better sorority experience.

TAYLOR BRYNER-SPAW, 33
KAPPA MU, DUQUESNE UNIVERSITY

Taylor is a fitness entrepreneur who believes fitness is about much more than how your body looks. Through her group fitness studio, Spin Unlimited in Uniontown, Pennsylvania, Taylor inspires a community of people to show up for themselves and love and celebrate their bodies no matter where they are in their fitness journey. Taylor and her husband, Matt, started Spin Unlimited in 2020 amid the COVID-19 pandemic, and it has grown into a thriving community that offers indoor cycling, strength training, yoga, group fitness classes and massage. Spin Unlimited received the Herald-Standard Community Choice "One of the Best" New Business awards and "One of the Best" Fitness Facility awards for 2022 in Uniontown. In addition to being the owner, social media manager and head instructor at Spin Unlimited, Taylor is a higher education professional working for West Virginia University as the Program Coordinator of Group Tours in the Visitors Center. Taylor's favorite role of all is being a mother to her one-year-old daughter, Kollyns.

Taylor's drive to build a community stemmed from her Sigma Kappa experience that she holds close to her heart. Taylor has served the organization through several roles including working as a leadership consultant from 2018-2019, serving on the national recruitment team, advising the Theta Chi Chapter, and currently serving on the advisory board for the Alpha Omega Chapter.

DR. KRISTA CROW, 29

LAMBDA GAMMA, ROBERT
MORRIS UNIVERSITY

Krista is a lifelong learner passionate about team-based problem-solving and bringing together individuals to solve the most complex problems. Krista recently completed her Ph.D. in Environmental Health Science at the University of Georgia and is beginning her career in management consulting at Deloitte. Her graduate research focused on how environmental factors, like medications, can negatively impact male reproductive health. During her graduate degree tenure, she performed a tremendous amount of research on reproductive health, taught and developed several undergraduate classes, mentored undergraduate and graduate students, spoke at conferences, served as the President of the Environmental Health Sciences Graduate Student Association, and wrote academic articles.

She has also made a conscious effort to give back to her community. She embodies Sigma Kappa's core values with service, loyalty and friendship. In addition to having such achievements under her belt, Krista has been supportive of her friends and fellow sisters. She celebrates every milestone she hears of, however big or small. Krista is relatable to students and builds positive mentoring relationships with many. She has volunteered and mentored at local chapters of Sigma Kappa as well as encouraged other sisters to get involved in advising.

Sue is a business law and legacy planning attorney in Roanoke, Virginia, and the mother of a two-year-old daughter and 11-month-old son. In a historically male-dominated industry, Sue has thoughtfully collaborated with the leadership of her mid-sized firm, Woods Rogers Vandeventer Black, PLC, to create a path toward providing both herself and others the opportunity to continue their careers while parenting small children in a part-time, flexible work arrangement. Since her graduation from William & Mary Law School in 2016, Sue has represented hundreds of families, individuals, and large and small companies in navigating daily legal issues and long-term planning needs. She serves as outside general counsel to Virginia businesses on matters relating to corporate transactions, organization and governance, and acquisitions and sales. Her practice also focuses heavily on representing and advising business owners and their fiduciaries in developing company restructuring, continuation and succession plans, along with family trust and estate planning and administration. Sue has consistently been recognized for outstanding professional excellence by her peers through The Best Lawyers in America® Ones to Watch list, Virginia Business magazine as a Legal Elite, and Super Lawyers as a Rising Star.

Sue says that both her profession and family life provide daily opportunities to live Sigma Kappa's values of personal growth and service for herself, her children, and through the many ways she supports her colleagues and clients.

SUE COOK, 34

EPSILON CHI, VIRGINIA
POLYTECHNIC INSTITUTE AND
STATE UNIVERSITY

Genevieve is a writer and communications director. Her bylines have appeared in VICE, Cosmopolitan, Vogue Business, Teen Vogue, Elite Daily, Business Insider, MASHABLE and POPSUGAR, with her work and words cited in The New York Times, Vox, the BBC World Service, Cheddar News, Jezebel and more. Her debut novel, "Adelaide", was released in April 2023 and explores grief and mental health while capturing the timeless nature of what it's like to be young and in love.

Genevieve has stated in interviews and in her book acknowledgments how much her Sigma Kappa sisters influenced the characters she wrote and were a critical point of support for her in her writing process. Even after relocating to London, she remains loyal to Sigma Kappa and her Delta sisters, including having a chapter member create artwork for advanced copies of the book. "Adelaide" was selected to be Marie Claire's #ReadWithMC book club choice for May as well as a Book of the Month subscription selection. "Adelaide" received a starred review from Kirkus and glowing reviews from Booklist and Publishers Weekly.

**GENEVIEVE
WHEELER, 30**
DELTA, BOSTON UNIVERSITY

Karen turned her science background into a creative business she is passionate about: handcrafted, non-toxic self-care products made with natural ingredients. She started her business, Fig & Fire, to offer safer options consumers can feel good about breathing in and putting on their skin. Karen uses her business as a means to support causes that are close to her heart. As an alumna, she collaborated with her collegiate chapter on a candle fundraiser that benefited the Sigma Kappa Foundation. She also has a line of products that benefits The Breasties, a nonprofit organization that supports women impacted by breast and reproductive cancers. Karen has coordinated several sunflower festivals to support local agriculture and small businesses and to bring the local community together.

**KAREN GOLAN
LAROCHELLE, 34**
BETA ZETA, UNIVERSITY
OF MARYLAND

**BRIANNA
TAGGART, 26**
KAPPA PHI, FLORIDA
ATLANTIC UNIVERSITY

Brianna is a Development Director for the American Heart Association in Palm Beach County, Florida. As an undergrad, Brianna served as Kappa Phi's vice president of philanthropic service, which inspired her to work in the nonprofit sector. After only five years in nonprofits, Brianna is now the local director of a nearly \$1M campaign advocating for women's heart health, Go Red for Women, which broke local, regional and national records in 2023. Outside of work, Brianna serves as the Young Alumni Chair for her alma mater, Florida Atlantic University, where she works with the school and fellow alumni to keep graduates involved with the university after graduation. Brianna also gives time back to the sorority by serving on Sigma Kappa's public relations advisory council and volunteering as Lambda Kappa's collegiate management advisor.

**ANDRIANNA
MARSHALL, 34**
ZETA ALPHA, INDIANA
UNIVERSITY SOUTHEAST

Andrianna has worked with seniors for over 12 years, ranging from being a caregiver to an Alzheimer's Association volunteer and admissions coordinator at a senior living facility. Andrianna's grandparents suffered from Alzheimer's disease, and she has adopted Kentucky seniors in their honor. In addition to being a wife, mother of five and a full-time business administrator, she still finds time to volunteer with Sigma Kappa in a number of roles. Additionally, Andrianna volunteers at two local elementary schools and as a support group facilitator and community educator for the Alzheimer's Association of Greater Kentucky and Southern Indiana. She was invited to attend the Alzheimer's Association's Volunteer Summit in San Diego in 2023, and she was the Family Ambassador for the 2022 Walk to End Alzheimer's in Louisville, Kentucky.

**DR. HAIDEN A.
PERKINS, 27**
THETA OMICRON,
ARIZONA STATE
UNIVERSITY

Haiden received her Ph.D. in child development from Michigan State University studying trauma and resilience in young children. She is passionate about supporting the development of our youth as well as promoting the scholarship of learning while embracing the diversity of learners in higher education. She completed her program in July and will begin as an assistant teaching professor of positive psychology at Arizona State University in the fall. Throughout her studies, Haiden has sought out opportunities for growth and experience. She took on graduate and teaching assistant roles where she made an impact on the students she worked with. Her research team has been chosen to present at multiple conferences to promote equitable, purpose-driven learning. Haiden became a volunteer for Sigma Kappa shortly after completing her undergrad and has always stayed connected to Sigma Kappa's purpose.

RACHEL C. ENGSTER, 32
BETA ZETA, UNIVERSITY OF MARYLAND

Rachel is a female leader in a male-dominated field, but that is only the beginning of what makes her an incredible role model and example for other Sigma Kappas. She is a graduate of the United States Air Force Weapons School (similar to the United States Navy Strike Fighter Tactics Instructor program or Top Gun) and is a principal instructor in her field. She began her new role this summer supporting the B-2 as the 509th Bomb Wing's Senior Intelligence Officer at Whiteman Air Force Base.

While Rachel's career is impressive, her passion for participating in and bettering her community is especially inspiring. When she was stationed in Las Vegas, Rachel volunteered as a tour guide at the Neon Museum, served as president of the Sigma Kappa Las Vegas Alumnae Chapter, and advised several Theta Eta Chapter executive council positions. Upon her move to California, Rachel became a docent at the Sacramento Zoo where she helps people from every walk of life develop a connection with animals and promotes the importance of conservation and caring for our planet. She is an active member of Arcade Church, serving as a Vacation Bible School team leader each summer and leading a weekly women's Bible study. Rachel also learned to row as part of a crew during River City Rowing Club's Learn to Row class in July 2023. She loved the sport so much, she joined the club's novice master's team and was elected team captain! She does all this while maintaining her position at work leading and mentoring young Airmen.

**HANNAH BAHRAM
POUR, 20**
MU, UNIVERSITY OF
WASHINGTON

Hannah studies global health and data science and is currently working in the Bruchas Lab, a neuroscience research lab, at the University of Washington to study the Mu-opioid receptor. This summer, Hannah began to build on her research by beginning her own project to look at the role of the Mu-opioid receptor in enkephalin projections from the Lateral Hypothalamus to the Ventral Tegmental Area of the brain. Outside of this project, Hannah also works as a research assistant at Seattle Children's Hospital to launch a national database for children diagnosed with Prader-Willi Syndrome, a genetic multisystem disorder. She has recently accepted an invitation to work as a laboratory assistant on a new Phase 1 Clinical Trial at Fred Hutchinson Cancer Research Center to continue pursuing her passion for science and improving lives.

Growing up in Detroit, Remi always loved sports, both watching and playing them. In high school she took her first TV production class to try her hand at sports broadcasting. She fell in love immediately and decided to pursue it in college, graduating with a degree in journalism and a minor in sports journalism. During her first job in North Texas and Southeastern Oklahoma, she became the second female sports director at her station and led the first all female sports department. It was also the first ever all-female sports department at any TV station in the state of Texas.

She served as a sports reporter and anchor for several different markets, before coming back to Michigan to be a sports reporter and weekend sports anchor at FOX17 in Grand Rapids. Remi often highlights women in sports and sports reporting through her role. She is passionate about being an ally and advocate for women in a field where women are often underrepresented.

**REMI
MONAGHAN, 25**
ALPHA TAU, MICHIGAN
STATE UNIVERSITY

MEGAN BOLDS, 26
BETA XI, UNIVERSITY OF MEMPHIS

Megan is a firm believer that "while some opportunities are presented, others have to be created." She began creating opportunities in college, serving as president of the campus chapter of the Public Relations Society of America. She was recognized in the first five years of her career with awards from Toastmasters and Way Up, and in 2019 she was named one of the top 100 interns in the United States. Megan worked at AutoZone headquarters for four years in various roles throughout the e-commerce and marketing departments before joining Lowe's in 2022. Currently employed by Lowe's as a Product Manager, she leads developers to maximize client experiences in digital shopping.

A founding member of her Sigma Kappa chapter, Megan exemplifies personal growth in her community as the founder and president of the Memphis Girls Book Club, a group that meets monthly to discuss books that promote sisterhood and healthy hobbies. An active member of the Greater Mid-South Sigma Kappa alumnae chapter, she also serves as an advisor for Beta Xi and as secretary and Panhellenic delegate for the Memphis Area Alumnae Panhellenic.

Sigma Kappa collegiate chapters spent the spring semester building sisterhood, raising money and celebrating the excellence of our members.

Lambda Zeta, University of South Florida

Tampa, FL – In the spring, the chapter held a sisterhood retreat at Grady Goat, an organization in Tampa, Fla., that hosts goat yoga classes. The idea of spending an entire day with loving sisterhood and giddy goats made their hearts fill with joy.

LAMBDA ZETA, UNIVERSITY OF SOUTH FLORIDA

The chapter's sisterhood retreat at Grady Goat combined yoga, cuddly goats, and the company of sisters.

Kate Edelstein said, "the staff was very welcoming and helped us have the best experience! The goats were all very friendly and it was great being with all my sisters!"

The owner of Grady Goat told the chapter members that they were the second-largest group to ever do goat yoga with them. They were even kind enough to build a new enclosure for the yoga session – allowing all 106 members to participate together. "It was super exciting finding out that we were one of the largest groups they've had! We got to see a beautiful section of the farm with a garden and horses," said **Stephanie Rutledge**.

For many of the spring 2023 new member class, this was one of their first opportunities to spend time with the entire chapter. "As a new member, the sisterhood retreat let me meet so many new sisters who were so welcoming! It was so nice to be able to have fun and connect with all the sisters," said **Aiden Capellaro**.

The chapter loved getting to know all their new members and was truly reminded of why they adore this sisterhood so much.

Epsilon Chi, Virginia Polytechnic Institute and State University

Blacksburg, VA – Four members of the Epsilon Chi Chapter were highlighted for their involvement and achievement in undergraduate research.

EPSILON CHI, VIRGINIA POLYTECHNIC INSTITUTE AND STATE UNIVERSITY

Laura Wenger is just one of several Epsilon Chi members who are involved in important undergraduate research in STEM fields.

Mackenzie Lonack works in Virginia Tech's Duggal Lab, sequencing a ZIKV infectious clone of the Zika virus. Mackenzie reflected on the influence of her laboratory experience, stating, "Being involved in research is one of the best decisions I've made here during my time at Virginia Tech. It gave me the ability to do what I was learning in class in real time."

Cayla Katz performs research with the Laboratory for Fluid Dynamics in Nature InsulPatch project, which uses microfluidic technology, 3D printing and device fabrication to aid those with diabetes. Cayla discussed the project's importance to her both academically and personally. "I chose this research as it most aligned with my career goals of medical device development. The project is aimed at patients with diabetes and several people are affected in my life which makes me eager to help make a difference."

Epsilon Chi's Vice President of New Member Education, **Becca Gregory**, researches with the Alliance for the Study of Suicide Prevention and

THETA ETA, UNIVERSITY OF NEVADA, LAS VEGAS

The chapter celebrated the mothers and mother figures in their lives with a brunch picnic and a trip to a baseball game.

UPSILON, OREGON STATE UNIVERSITY

To celebrate the chapter house turning 100 years old, chapter members, alumnae, families and friends were invited to a centennial celebration in honor of their beautiful blue house.

Intervention through Relationship Enrichment – working to investigate methods of family therapy in association with relationships and suicide prevention. Becca was drawn to her work via her career goals and interest in mental health. “I think that relationships and the people around us have such a strong impact on our mental well-being, so this was work that really interested and inspired me,” she said.

Laura Wenger works with Carilion Clinic Innovations and Virginia Tech’s Department of Biomedical Engineering and Mechanics. Their research focuses on creating a wearable medical device to treat upper-extremity lymphedema – they recently applied for human trials. Laura reflected on the support the sisters of Sigma Kappa provided to her throughout this process. “They celebrated all my little wins and listened whenever I needed to vent about something that didn’t go as

planned,” she said. “These women truly have been my rock during not only my research experience but my college experience as a whole.”

Theta Eta, University of Nevada, Las Vegas

Las Vegas – In March, members of the Theta Eta Chapter hosted a picnic and baseball game hangout for the moms of the collegiate chapter members.

The event, planned by Vice President of Alumnae Relations **Camille Yap**, brought together the mothers and mother-figures of members and celebrated the impact they have made by helping the members grow into the strong women they are today.

A picnic was set up at a park near campus, where chapter members and their mothers were able to have brunch together and build connections with each other. The day ended with a trip to the baseball field, where members and their moms

attended a University of Nevada, Las Vegas game. The members and their moms enjoyed the scarlet and gray spirit and cheering on the team.

Celebrating their moms was something the chapter will cherish forever. They hope to continue hosting events to continue promoting friendship and community within their chapter, as well as with each other.

Upsilon, Oregon State University

Corvallis, OR – The Upsilon Chapter house turned 100 years old. To celebrate, members held a centennial celebration during the spring semester. Members enjoyed being able to invite alumnae, family and friends into their home to celebrate a century of living in their beautiful, blue house.

In the fall, the chapter became part of the Affiliated Housing Program for Oregon State University, which allows first-year students to move into the

EPSILON TAU, CALIFORNIA STATE UNIVERSITY, FULLERTON

Alumnae and collegians came together to celebrate 50 years of the chapter at a gala in February.

chapter house. The chapter is working toward creating a more inclusive space within the chapter facility, with the hope of being fully ADA compliant by 2028, which includes adding a full room on the first floor and a permanent ramp in the front.

Additionally, during the spring, the members held their first Ultraviolet Gala, which was a great way for

families and the community to gather and learn about their philanthropic initiatives. The women were thrilled to adopt a new tradition and look forward to hosting the event again. They are proud of all they have been able to accomplish this past year and are excited to continue their growth and development as a chapter.

Epsilon Tau, California State University, Fullerton

Fullerton, CA – The Epsilon Tau Chapter celebrated their 50th anniversary with a gala Feb. 18. The event was planned by Vice President of Alumnae Relations **Mariah Velez**.

At the gala, members had the chance to mingle with alumnae and view memorabilia such as letters, paddles and pillows. Photo books containing images from all 50 years of Epsilon Tau were laid out for viewing. For members and alumnae, there was a ritual room with books containing signatures from past initiations, as well as old meeting minutes.

Skyler Logan, vice president of academic excellence, hosted a scholarship banquet to recognize those who achieved academic excellence the previous semester. Award certificates and small gifts were given to those with a GPA of 3.0-4.0. A 4.0 is hard to achieve, but one member, **Madeleine Lindbeck**, was able to achieve it and was awarded a Kate Spade necklace to honor her hard work.

Beta Tau, University of Florida

Gainesville, FL – Beta Tau serves as a proud home to a group of diverse young women. The members of Beta Tau come from a variety of different cultures, countries and histories – something the chapter has always celebrated and held dear. This includes advocating for their sisters in times of need.

The University of Florida has seen a rise in antisemitism on campus, with derogatory phrases toward Jewish students being chalked in common spaces. Teaming up with the University of Florida's Panhellenic council, the sisters of Beta Tau decorated the sidewalk outside their

BETA TAU, UNIVERSITY OF FLORIDA

The chapter chalked messages of love, acceptance and support in front of the chapter house after a rise in antisemitic acts on campus.

house with sincere sentiments of acceptance, support and love.

One of their Jewish members, **Lauren Goldman**, stated beautifully, "When the voices of hatred are shown, it's always amazing to see how the

Beta Tau's sisterhood is stronger than ever. The crossroads of solidarity and unity sprawled on the sidewalk of Beta Tau may have faded with the next rain, but the sentiment behind it still lives in the hearts of the sisters.

voices of love and support are even louder. These chalk drawings show the love and inclusivity that I feel from Sigma Kappa."

Among the drawings were the campuswide statement of "Chomp Hate," a Sigma Kappa-inspired Dove Love sketch and other phrases such as "You Are Safe Here." Sisters of all new member classes, religions and backgrounds got together to illustrate their support for their Jewish sisters.

As the public university with the largest population of Jewish students in the United States, and as a chapter with a large percentage of sisters belonging to differing religions, races and cultures, Beta Tau has not only made it a goal, but a basic standard to uphold inclusivity. It falls under the cherished pillars of the Sorority in both friendship and loyalty.

In a time of so much hate and anger, the bond of

Delta Delta, Central Michigan University

Mt. Pleasant, MI – This year, the women of the Delta Delta Chapter at Central Michigan University focused heavily on the value of friendship. Specifically, **Claire Edwards**, sisterhood chair, wanted to reach out to the Kappa Beta Chapter at Grand Valley State University (GVSU) for a combined sisterhood event.

Claire, along with GVSU's sisterhood chair, planned many activities to help members of both chapters learn and grow together. After arriving at GVSU, two women from our chapter paired with two women from their chapter for a tour of their campus.

Later, a candlelight took place where the women were put into random groups and answered get-to-know-you questions. These questions helped our chapters bond. At the end, all the women wrote two uplifting letters – one to a woman in their chapter and one to a woman in the other chapter. The letters were read, and final goodbyes were said.

All in all, the sisterhood event with GVSU was a fun time for both chapters. Through the activities, sisters bonded and made many new friends.

Kappa Iota, University of Pennsylvania

Philadelphia, PA – Members of Kappa Iota, University of Pennsylvania, were on the move during the spring semester – with unconditional support from their sisters. **Maddie Kelly** traveled to Paris, France, to run in the annual half-marathon, Harmonie Mutuelle Semi de Paris. As she lined up to start the race, Kelly was cheered for on the sidelines by **Katie Donahue** and **Bridgett Scott**. **Sam Simon** joined in on a St. Patrick's Day Shamrock Shuffle race, placing second.

Meanwhile, on campus, multiple members worked together to put on the Penn Dance Company spring performance. **Victoria de la Rosa**, **Ella Siefken** and **Vanessa Lu** showed

DELTA DELTA, CENTRAL MICHIGAN UNIVERSITY

Members of Delta Delta and Kappa Beta, Grand Valley State University, strengthened friendships and formed new ones at a combined sisterhood event.

off their amazing dancing skills over two shows, putting in hours and hours of hard work. **Julia Lottman** supported the show by operating the lighting system, while **Anya Michalewski** and **Theo Athanitis** volunteered as stage managers. **Shravya Aparasu** showed off her moves as a member of Penn Raas, with various members in attendance to support.

Caroline Dannacher and **Claire Dubois**, members of the Penn Sailing Team, started their spring season off strong. Caroline was excited to get the most out of her last sailing season with Claire before graduation. Throughout all these events, Kappa

lota members show up to support, whether on the sideline, in the audience or through their hard work.

Alpha Sigma, Westminster College

New Wilmington, PA – Following formal recruitment in the spring, members of the Alpha Sigma Chapter took a trip to Pittsburgh, Pa., for a sisterhood event. The chapter traveled to Pittsburgh to visit The Mattress Factory, a contemporary alternative museum of art that is fully immersive to the viewer. The museum features regional, national and internationally acclaimed artists.

Located in the suburbs of Pittsburgh, the museum consists of multiple

buildings hidden between the residencies of the suburb. This event allowed our new members to spend time with initiated members in a creative and comfortable environment.

Upon arrival to the museum, members were broken into smaller groups to make their way through the exhibits. This allowed each group to have a different experience and share these with the chapter. "I thought the experience was amazing! It was super fun to get off campus and spend the day with our sisters. I think it helps us bond with new members because we get to be with them off campus and learn about their personalities a

KAPPA IOTA, UNIVERSITY OF PENNSYLVANIA

Kappa Iota members are involved in a wide variety of activities on and off campus, from sailing to running to dance.

bit more," said **Olivia Herman**, vice president of philanthropic service.

Overall, the trip to The Mattress Factory was a positive experience that allowed initiated members to bond with new members and engage them in some of their first experiences as a Sigma Kappa.

Epsilon Epsilon, University of Georgia

Athens, GA – At the core of every Sigma Kappa chapter is a heart for philanthropy and service, striving to give back to their local and global communities. With more than 330 members, the Epsilon Epsilon Chapter can make a huge philanthropic impact, and that is exactly what they did in fall 2022 for Alzheimer's disease research. As a chapter and team, they raised nearly \$100,000 for our nationwide philanthropy dedicated to fighting the disease.

This great accomplishment was made possible by the efforts of **Caroline Blanks**, vice president of philanthropic service. Caroline spearheaded efforts for members to raise awareness, fundraise and learn more about the disease through local partnerships, individual member fundraising pages and philanthropy events for all students and members of the Athens community to enjoy.

At the end of the fundraising period, members of Epsilon Epsilon gathered for the nationwide Walk to End Alzheimer's. The walk served as a culmination of their efforts as a chapter; with hundreds of members, their families and friends, and the Athens community joining together, celebrating sisterhood and recognizing the substantial impact they were making on those impacted by Alzheimer's.

As a result of her dedication to her chapter and fighting Alzheimer's, Caroline had the honor of being one of two collegiate Sigma Kappa members to be chosen to go to the National Alzheimer's Leadership Summit in San Diego, Calif., this February.

"To be able to learn, speak and collaborate on how to raise awareness and end this disease was amazing," Blanks said. "It was a life-changing experience. It makes me even prouder to be a member of Sigma Kappa because I can see the impact we are making. Being able to share with others our efforts in ending this disease was remarkable. I will never stop raising awareness and fighting for a cure."

ALPHA SIGMA, WESTMINSTER COLLEGE

The chapter traveled to Pittsburgh to visit The Mattress Factory, an immersive contemporary museum of art, for a sisterhood retreat.

EPSILON EPSILON, UNIVERSITY OF GEORGIA
Vice President of Philanthropic Service **Caroline Blanks** was one of two collegiate Sigma Kappa members chosen to attend the National Alzheimer's Leadership Summit in San Diego, Calif., this February.

ALPHA THETA, UNIVERSITY OF LOUISVILLE
The chapter hosted a full week of activities for Ultraviolet Week, including Sigma Diner, a cookout-style event with burgers and root beer floats. The events raised nearly \$3,000 for the Sigma Kappa Foundation.

Alpha Theta, University of Louisville

Louisville, KY – In March, the members of Alpha Theta, University of Louisville, hosted their annual Ultraviolet Week to raise money for the Sigma Kappa Foundation's PULSE Fund. Entirely organized by the chapter's Vice President of Philanthropic Service, **Emily Brucker**, the week was packed full of exciting fundraising events.

Monday, Alpha Theta hosted a bake sale at two locations across campus, offering homemade cookies, cakes, brownies and more.

Tuesday, the event was Pie-A-Sigma, in which donors could pay to pie any participating member of the chapter in the face – as many times as they wanted.

With Wednesday came Sigma Diner, a cookout-style event in which a small fee bought students burgers, snacks, drinks and root beer floats, as well as entrance to a karaoke.

Thursday, Alpha Theta members went to their favorite local restaurant, El Tarasco, for a percentage night in which a portion of the restaurant's earnings went back to Sigma Kappa.

Finally, Friday's event was Doveball, a dodgeball tournament where teams went head-to-head at the Student Recreation Center. Over this fun-filled week, Alpha Theta was able to raise \$2,927 for the Sigma Kappa Foundation. Not only did Ultraviolet Week allow these wonderful women an opportunity to spend time with their sisters, and the rest of their campus community, but it also allowed them the privilege to be able to help out for such an important cause.

KAPPA UPSILON, THE COLLEGE OF NEW JERSEY

Vice President of Academic Excellence **Lauren Stellwag** implemented new programs and events in the spring to encourage members to continue their academic success.

Kappa Upsilon, The College of New Jersey

Ewing, NJ – The sisters of the Kappa Upsilon Chapter at The College of New Jersey take great pride in their work ethic and academic achievements. The chapter has held the highest GPA in all the Panhellenic council at The College of New Jersey for the entirety of the 2021 and 2022 school years. The women of the chapter highly value their academic goals and support one another to achieve these goals.

Vice President of Academic Excellence **Lauren Stellwag** uses her position to encourage her sisters to be the best students and sisters they can be. In the spring 2023 semester, she implemented new opportunities within the chapter to give her sisters both academic support and motivation. The first is a weekly sister study session, where Lauren reserves a room every Wednesday at a designated time and place. This is where members can combine sisterhood and schooling by

motivating each other and holding each other accountable for their academics.

The second implementation Lauren created is the SKolar of the Week achievement. At each weekly chapter meeting, Lauren recognizes a sister who achieved a personal academic goal that week. The women of the chapter send in nominations for any sister they feel went above and beyond or accomplished a difficult task in their academic field. This encourages and rewards sisters for working hard to accomplish their goals and shows sisterly support within the chapter. Lauren said that she enjoyed her executive position because she was able to support and watch as her sisters “achieve great things and grow in their academic career, all while having a whole chapter of women cheering them on.”

Epsilon Lambda, California State University, Sacramento

Sacramento, CA – Members of Epsilon Lambda, California State University of Sacramento, had a spirited St. Patrick’s Day sisterhood retreat, Lucky to be Sigma Kappa. At the retreat, members participated in both personal- and friendship-developing activities – strengthening their bonds through a variety of games. During one activity, members were asked questions relating to their chapter, personal feelings, trust and personal beliefs and stepped forward if it applied to them. Through this activity, members were able to learn more about each other, as well as discover ways to bond with each other. The retreat ended with members exchanging handmade bracelets with charms that related to each of them. Through all the day’s activities, the members were able to connect, which bonded them through one of their core values in the chapter, friendship.

EPSILON LAMBDA, CALIFORNIA STATE UNIVERSITY, SACRAMENTO

The chapter built sisterhood at a St. Patrick’s Day themed “Lucky to be Sigma Kappa” retreat.

ALUMNAE HIGHLIGHTS

FORT WORTH (TX)

The Fort Worth Alumnae Chapter enjoyed each other's company at a sisterhood brunch.

ORANGE COUNTY (CA)

With spring here and the rain abated, Orange County alumnae attended the Newport Harbor Alumnae Association Panhellenic "Spirit of Sisterhood" special event at the Bahia Corinthian Yacht Club in Corona Del Mar, Calif. The event celebrated sorority alumnae from many chapters in the area.

CHICAGO WEST TOWNS

Sisters of Chicago West Towns took in a performance of "Shadowlands" at Wheaton Drama on April 2.

CHICAGO SOUTH SUBURBAN

Chicago South Suburban Alumnae enjoyed a golf course view and cookie-themed art at a recent chapter luncheon.

PHOENIX

Phoenix Alumnae Chapter members, spouses and friends met up for dinner at Lou Malnati's.

CENTRAL FLORIDA

The Central Florida Alumnae Chapter met for brunch at the 240 Rose Cafe in Winter Park, Fla.

IN MEMORIAM: PATRICIA "TRISH" SAVOYE TARDIFF, 1948-2023

Longtime Sigma Kappa Foundation volunteer **Patricia "Trish" Savoye Tardiff**, *Epsilon Beta*, University of New Orleans, passed away on May 23, 2023. Trish was a very proud wife, mother and grandmother. Her family was the most important thing in the world to Trish. A consummate Sigma Kappa, Trish always brought heart and zest to her work with our organization. She held many roles throughout the years including serving the Sigma Kappa Foundation as a member of the board of trustees from 1999-2008 and remained on the Foundation emergency grants committee from its inception to her passing.

Foundation Past President **Glenna Pierpont**, *Gamma Chi*, Stephen F. Austin University, said, "Trish will be in the hearts of many Sigma Kappas across the country with her long-dedicated service to our sisterhood. Her energy was contagious and love for Sigma Kappa will be remembered by all who collaborated with her and became her friend."

Her last service to Sigma Kappa Foundation on the grants committee was Trish's biggest passion. During her time on the board, the trustees established the Sister to Sister Disaster Recovery Fund and laid the groundwork for the Alumnae Heart Fund. She brought compassion to the process and knew Sigma Kappa Foundation was in a unique position to help sisters.

"Trish was a constant on the grants committee, being there from the very beginning. We knew we could count on Trish to ask great questions and also empathize with many of our grant applicants," shared Foundation Trustee **Marisa Wilkes**, *Theta Iota*, The State University of New York at Fredonia.

"Trish was always an enthusiastic and dedicated Sigma Kappa who supported the Foundation in many ways," according to Foundation Past President **Madalyn Teal**, *Gamma Chi*. "The Foundation will live on for many years in a strong way because of Trish Tardiff's work and legacy. She truly exemplified the ideals and mission of Sigma Kappa and will be dearly missed."

DID YOU KNOW?

The first 31 conventions were held in Waterville, Maine.

It wasn't until convention 36 in 1910, held in Champaign, Illinois, that the event moved out of the Northeast. Convention came back to Waterville in 1924 for Sigma Kappa's "Golden Jubilee" 50th anniversary convention, which was attended by all four surviving Founders.

The four remaining Founders with convention delegates in 1924

Sigma Kappa's convention attendance has grown too large to be accommodated by the state of Maine, but be on the lookout for information on an optional trip to Waterville and Colby College in conjunction with our 150th anniversary convention in Boston!

Delegates to the 1905 convention

Banquet program from the 33rd annual convention in 1907

In every issue of the *Sigma Kappa Triangle* leading up to our commemorative 150th anniversary edition in Autumn 2024, we'll be featuring a different historical fact or time period. Is there something you'd like to learn more about? Let us know at sktriangle@sigmakappa.org!
